FOR IMMEDIATE RELEASE – JUNE 19, 2013

Mill-Rose Introduces New Line of Brushes

for Automotive Maintenance & Repair

Cleveland, OH – A new line of [brushes specifically designed for automotive maintenance and repair](#) is now available from The Mill-Rose Company, the largest manufacturer of twisted-in-wire brushes in the United States.

Transmission and engine rebuilders will appreciate the comprehensive selection of abrasive brushes used to clean valve bodies and holes in engine blocks. These brushes are designed for hand or power use and make fast work of cleaning, removing dirt and sludge, and reaming the inside diameter of holes. Brushes are available with nylon, carbon steel or abrasive silicone-carbide bristles depending on the application required.

A broad selection of cup brushes and wheel brushes are offered to remove scale and rust from machined surfaces and edges. Parts cleaning brushes, spoke/grill brushes and sidewall brushes are also included in the new product line for automotive maintenance and repair.

The Mill-Rose Company offers the most extensive line of twisted wire brushes used in virtually every industry throughout the world. Brushes are offered in thousands of standard and not-so-standard sizes and shapes, and the company specializes in custom-designed brushes used in new and unique applications. For further information visit <http://millrose.com/automotive-brushes.php> or call toll-free 800.321.3533.
